PROFESSIONAL SUMMARY

Front-End Developer specializing in React and Next.js (TypeScript), building production web applications including LMS platforms, dashboards, and e-commerce UIs. Experienced in component-driven architecture, API integration, and performance optimization (Core Web Vitals focus), delivering responsive and accessible interfaces across devices.

HIGHLIGHTS

CORE SKILLS (Front-End)

React, Next.js, TypeScript, Tailwind CSS • Component Architecture • State Management (Context/Redux) • TanStack Query • REST API Integration • Responsive Design • Accessibility • Performance Optimization • SEO-Friendly Rendering

SELECTED IMPACT

- Delivered production front-end features using React/Next.js/TypeScript, collaborating with backend teams to ship stable releases.
- Engineered reusable component patterns to improve UI consistency and accelerate feature delivery.
- Improved performance using code-splitting and image optimization; reduced unnecessary re-renders by refactoring component boundaries.
- Redesigned key UI components and interaction patterns, reducing friction across learning and assessment journeys.
- Implemented API-driven UI updates and theming to support configurable layouts, fonts, and colors via admin controls.

EXPERIENCE

Front-End Developer — Champions Global | Cairo, Egypt | Sep 2025 - Nov 2025

- Delivered 10+ UI features across 3 LMS modules over 12 weeks (6 sprints) using React/Next.js/TypeScript.
- Streamlined 2 core learning/assessment journeys across 6 screens, reducing the primary flow by 2 steps and ~3 clicks.
- Refactored 5+ React components into reusable primitives, standardized 4 shared UI patterns, and reduced typical feature delivery from 4 days → 3 days (~25%).
- Implemented admin-driven theming for 12 UI tokens (colors, typography, layout), saving ~1 hour per UI change and reducing rework by ~20%.
- Developed a quiz/exam engine supporting 3 question types and 4 scoring rules, used across 15+ assessments.
- Integrated JWT authentication and role-based UI for 3 roles, covering 8 protected routes/pages.
- Consolidated 8 components and removed 3 duplicates, reducing repeated UI code by ~10% and improving maintainability.

Additional Experience

Front Office Receptionist | سعدي-جوهر | **Jun 2025 - Present**
- Oversaw front-desk operations, scheduling, and documentation in a high-volume environment.

Assistant Manager (Admistrative)| AFRO Egypt | Oct 2023 – Jun 2025

- Coordinated reporting, documentation, and cross-team communication across engineering and field teams; maintained accurate tracking in Excel/Word.
- Worked with enterprise clients (Nokia, Huawei, Ericsson, Orange) while meeting quality and communication standards.

Administrative (Hospital) | Sep 2020 – Oct 2023
- Coordinated records, scheduling, and inter-department workflows in a fast-paced environment requiring confidentiality.

PROJECTS

Champions Hub — LMS Platform | Live ⌕
- Developed a scalable, component-driven UI for course browsing, filtering, and enrollment flows in React/TypeScript.
- Integrated API-driven course content and improved interaction flows for faster navigation and better responsiveness.

Tech: React, TypeScript, Tailwind CSS, REST APIs

FocusFlow Dashboard | GitHub ⌕
- Developed an auth-protected productivity dashboard with task creation, status workflows, and summary analytics.
- Implemented server data fetching patterns with TanStack Query and reusable UI components for charts/notifications/themes.

Tech: React, TypeScript, Tailwind CSS, TanStack Query

Vanilla Hoodie Shop — E-Commerce | Live ⌕
- Created a lightweight e-commerce UI using React.js, implementing product listing, cart state, and interactive UI behaviors.
- Improved load times by minimizing bundle size and simplifying render paths.

Tech: React, Tailwind CSS, TypeScript

CRM Dashboard UI | Live ⌕
- Designed analytics dashboards including cards, charts, and data tables.
- Organized reusable layout components to maintain design consistency.
- Enhanced responsiveness across tablet/mobile breakpoints with flexible layouts and reusable UI primitives.

Tech: React.js, Tailwind CSS, TypeScript

AI-Expense-Dashboard | Live ⌕
- Created dashboards visualizing expenses with interactive charts.
- Added filtering, categorization, and Implemented data-driven UI updates based on filters and categories.
- Shipped a responsive dashboard tailored for daily financial tracking, with filtering and Updated charts and tables based on user-selected filters.

Tech: Next.js, React.js, Tailwind CSS, TypeScript, Recharts

Landing Page Template | Live ⌕
- Delivered an SEO-friendly landing page using semantic HTML and Next.js routing.
- Assembled modular sections (hero, features, pricing, CTA) for easy scalability.
- Ensured high performance and fast loading through modern Next.js features.

Tech**:** Next.js, React.js, Tailwind CSS, TypeScript, Framer Motion

Skills

- **Front-End:** React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **State & Data:** Context API, Redux (if used), TanStack Query, REST APIs
- **UI/UX:** Responsive Design, Accessibility, Component Architecture, Design Systems
- **Performance:** Code Splitting, Image Optimization, Caching Strategies, Core Web Vitals *(only if you can defend it)*
- **Tools:** Git/GitHub, npm/yarn/bun, Linux, VS Code, Webpack/Vite basics

Education

Bachelor's   Sep 2019 – Jun 2023
Faculty of Law, Helwan university

Languages

Arabic   **English**
  Fluent   Good
